Directions for use:

SCALE*free*

1. Following dosage chart below, add the recommended "Initial Dosage" of **SCALE*free*** directly to the pool.
2. If water hardness level is above 500ppm (parts per million), double the recommended dose
3. Brushing is required

Dosage Chart

Pool Size	**Initial Dosage**	**Monthly Dosage**
10,000 gallons (38,000L)	32oz (946ml)	5oz (148ml)
20,000 gallons (75,700L)	64oz (2L)	10oz (296ml)

Monthly Maintenance

After initial treatment, add **SCALE*free*** monthly according to recommended dosage chart to maintain scale and stain protection throughout the season.

Note: For new, remodeled or refinished pools, add **SCALE*free*** following initial dosage instructions. Add product to pool water during filling to prevent plaster dust formation, scaling and metal staining.
