Model #200601T

Step 13: Insert the smaller end of the handrail connector into the top of the lower handrail.

Step 14: Place deck connector on the upper handrail and place into the hole on the top step.

Step 15: Place upper handrail down over the handrail connector.

Step 16: Drill #14 x 1 1/4" screws into handrails through all upper and lower risers.

Step 17: Drill #8 x 1" screws into four dimples on step tread.

Step 18: Insert the socket cap into the unused hole in middle step.

For Questions Regarding Installation, Please Contact Main Access Customer Service 1-888-333-1134

iSTEP

Model #200601T Assmebly Instructions

Step 21: Pool Installation

Note: Two people are required for installation.

A total weight of approximately 100 lbs. is required to keep the step from moving once in place under water. With the assistance of another person, carefully place the step in the pool. Place the two sealed bags of sand (not included) in ballast bags (M) over the ballast tray (D) to hold the step in place. Walk step back against the pool wall to prevent swim behind hazards.

***Optional* Purchase (2) Anchors (#200888) to weigh down the iStep. Sand not included.**

Step 22: Deck Mount Installation

With the step in position close to the pool wall, slide the deck connectors (H) intstallation position on either the pool top seat or pool deck. Secure to the deck with two #8 x 1" screws (N). Use a minimum of two screws per deck connector. Secure each deck connector (H) to each upper handrail (E1) by using a single #8 x 1" screw.

All Finished!

For Questions Regarding Installation, Please Contact Main Access Customer Service 1-888-333-1134 or Info@MainAccess.com
